PROFESSIONAL SERIES PS-S210SUBT BRACKET QUICKSTART GUIDE

BOX CONTENTS

- (1) PS-S210SUBT Subwoofer Bracket
- (4) M10 x 1.5mm Bolts
- (4) Washers
- (1) Quickstart Guide

INSTALLATION

Use this bracket only with the Sonance PS-S210SUBT subwoofer (PN 40192) sold separately.

1. Mark and pre-drill mounting points in at least four locations (six locations recommended as shown in Figure 1).

Figure 1: Marking and Pre-Drilling

2. Secure the bracket to the installation surface. Use high-quality, graded lag bolts or similar fasteners rated for > 150 lbs (180kg) each of shear working load. M10 or 3/8" bolts are recommended. To prevent excessive vibration transference, use a damping material (such as mass-loaded vinyl, neoprene foam, rubber sheets, etc.) between the bracket and installation surface (see Figure 2).

Figure 2: Securing the Bracket

3. With the help of an assistant, lift the subwoofer into place. The sub can be installed in two orientations (see figure 3).

4. Secure the sub to the bracket with the four included M10 x 1.5mm bolts and lock washers (see Figure 4).

Figure 4: Securing the Subwoofer

Figure 5: Safety Backup

5. Recommended: for safety backup, connect eyebolts and rigging (not included) to the built-in M10 flypoints on both ends of the cabinet. Consult a structural engineer on every installation to ensure the appropriate hardware and rigging are implemented in accordance to local code and regulations (see Figure 5).
