

Designed to easily replace a standard wall outlet, this power conditioner offers the best of both worlds: professional-grade surge protection and noise filtration – so audio/video equipment is well protected and works effectively. For added convenience, we’ve included a single gang back box for use with this product. (May not fit all new construction boxes.)

Protects Expensive Electronics

Keeps connected equipment safe and sound with best-in-class surge protection that “clamps” excess energy down to safe levels.

Improves Audio / Video Performance

Removes noisy interference coming from other components / electronics, providing the best and most pure performance possible.

Disconnects If Needed

If a large surge ever occurs, the power conditioner will disconnect AC power from the connected equipment to make sure equipment isn’t harmed.

LIMITED LIFETIME WARRANTY

This WattBox™ product has a Limited Lifetime Warranty. This warranty includes parts and labor repairs on all components found to be defective in material or workmanship under normal conditions of use. This warranty shall not apply to products which have been abused, modified or disassembled. Products to be repaired under this warranty must be returned to SnapAV or a designated service center with prior notification and an assigned return authorization number (RA).
