

POWER WHEN YOU NEED IT MOST

Your life shouldn't stop moving just because you lose power. Thanks to the WattBox Uninterruptible Power Supply, you can keep your equipment up and running long after power loss. This professional-grade UPS features essentials for audio, video, and whole-house system integration, including eight integrated outlets (four of which are programmable for critical load applications), full automatic voltage regulation (AVR), and Graceful Shutdown.

FEATURES

› STAY UP AND RUNNING

A power outage can be more than just an inconvenience. Whether you're surfing the web or enjoying a late-night movie, by connecting your devices to a UPS, you guarantee that if the power goes out, you won't miss a beat.

› FULL AVR

This unit uses Boost/Buck Topology, which actively corrects brownouts and over-voltages to usable levels, while maintaining a full battery charge in case of power failure.

› GUARANTEED PROTECTION

If your connected equipment is ever damaged by a surge, we'll fit the bill up to \$50,000. Plus, we offer a 5-year warranty on the chassis. Talk about peace of mind.
